ABOUT ME

I'm a Computer Science student at UVAS who enjoys building websites and mobile apps. I work with technologies like React, Node.js, Flutter, Dart, JavaScript, C++, SQL, and Firebase. I'm always learning new things and looking for opportunities to improve my skills through real-world projects.

EDUCATION

University of Veterinary & Animal Sciences (UVAS), Lahore | 2024 - Present

Bachelor of Science in Computer Science (BSCS)

PROJECTS

PakCartify – Full-Stack E-Commerce

- Built a full-stack e-commerce application using React, Node.js, Express.js, MongoDB, and Cloudinary.
- Implemented authentication, product management, cart, favorites, orders, and admin dashboard.
- Created a responsive, user-friendly shopping experience with a modern UI.
- Integrated REST APIs for smooth frontend-backend communication.

RedStore – Online Store | <https://redstore006.netlify.app>

- Built a responsive online store using HTML and CSS with a clean shopping-focused design.
- Designed product listings, categories, pricing, and promotional sections.
- Created a mobile-friendly and user-friendly interface.
- Created a clean, mobile-friendly shopping interface.

QuickStay – Hotel Booking Website | <https://quickstay06.vercel.app>

- Built a responsive hotel booking website using HTML, CSS, and JavaScript.
- Designed hotel listings, booking sections, and room details.
